  - ED does not adequately sanction schools to punish fraudulent behavior and deter similar violations.

# Lautenberg and Harkin Introduce S. 406 to Strengthen Oversight, cont.

---

- Bill would create triggers that would require ED review of institutions, would strengthen sanctions; and would hold executives of institutions personally responsible.

# **ED Addresses Distance Education**

# OIG Releases Report Warning FSA of Fraud Vulnerability in Distance Education Programs

---

- On 9/26/2011, the Office of Inspector General (OIG) released a report titled, “Investigative Program Advisory Report: Distance Education Fraud Rings,” alerting Federal Student Aid (FSA) of the serious fraud vulnerability in distance education programs and to make recommendations which would mitigate future risks of fraud in the Title IV programs.

# OIG Releases Report Warning FSA of Fraud Vulnerability in Distance Education Programs, cont.

---

- The introduction of the Internet to higher education and statutory changes that removed the restrictions on the eligibility of distance education programs have led to an increase in the number of education programs offered solely online and the number of students receiving Title IV funds. NCES found that the volume of students who took distance education courses increased from 8.2 percent in 1999-2000 to 20.4 percent in 2007-2008.

# OIG Releases Report Warning FSA of Fraud Vulnerability in Distance Education Programs, cont.

---

- The OIG report indicated that fraud rings have taken advantage of the expansion of distance education courses and programs to commit fraud against the Title IV programs and the higher education community. In 2005, OIG had opened 16 distance education fraud ring investigations and, as of August 11, 2011, OIG had opened 100 investigations.
- OIG recommended that ED should require schools to:
  - Verify the identity and regular student status of those enrolled in distance education programs;
  - Reduce the cost of attendance for Title IV awards to these students; and
  - Ensure that ineligible incarcerated persons not obtain Title IV awards.

# APSCU Litigation

---

- On 6/5/2012, the U.S. Court of Appeals for the DC Circuit ruled in
  - APSCU v. Duncan:
    - For incentive compensation rules, ED did not exceed authority by not permitting “salary adjustments” based on success in securing enrollments or the awarding of financial aid;
    - ED did not exceed authority in applying prohibition to higher level employees;

# APSCU Litigation, cont.

---

- ED exceeded authority with regard to misrepresentation rules:
  - By allowing ED to take enforcement action against schools without any procedural protections;
  - By prescribing misrepresentations not covered by HEA (HEA authorizes sanctions against substantial misrepresentations of the nature of its educational program, its financial charges, or the employability of its graduates, but the rules were broader.); and
  - By defining substantial misrepresentation to include “tendency or likelihood to confuse.”
- Upheld state authorization rules for land-based schools requiring state authorization.

# APSCU Litigation, cont.

---

- ED failed to provide notice that distance education schools must be licensed in every state in which they operate.
- NOTE: DCL GEN-12-13 states that the Court vacated on procedural grounds the requirement that state authorization requirement extends to students receiving distance education in a state which the institution is not physically located. ED will not enforce 34 CFR 600.9(c), “although institutions continue to be responsible for complying with all state laws as they relate to distance education.” (Q&A #7) “It must make sure the student has access to the state contact information for filing complaints in the State” if the student is in another state taking the program by distance education. (Q&A #12)

# APSCU Lawsuit on GE Rules

- On 6/30/2012, the U.S. District Court for DC vacated several GE provisions.
- APSCU v. Duncan
  - Gainful employment metrics: While the Judge concluded that the debt to earnings metrics were based on expert studies and industry practice, the Judge ruled that the repayment rate metric was arbitrary and capricious. Because the three metrics were intertwined, the Judge vacated all three of the metrics. Therefore, the three metrics do not exist and the FY 2011 Informational Gainful Employment metrics (see below) are irrelevant at the present time.

# APSCU Lawsuit, cont.

---

- Gainful employment reporting: Since the Judge vacated the debt measures of the gainful employment regulations, the Judge also concluded that he also must vacate the gainful employment reporting regulation as well. This regulation would have required institutions to report student-level data for FY 2012 to the Department of Education by October 1, 2012.

# APSCU Lawsuit, cont.

---

- New Program Approval Process: Since the Judge vacated the debt measures of the gainful employment regulations, the Judge also concluded that he also must vacate the regulation requiring institutions to use the gainful employment notification process for any new proposed gainful employment program and, if required, to wait for Department approval of the program. The prior notification and approval requirements are still in effect (i.e., adding new non-degree programs or any non-degree programs if provisionally certified).

# APSCU Lawsuit, cont.

---

- Gainful employment disclosures: Institutions must continue to provide their gainful employment disclosures, which should have been updated for the 2011-2012 award year no later than 1/31/2013.
- For each GE program, the institution must provide:
  - Occupations by name and SOC codes with links to O\*NET crosswalk;
  - Tuition and Fees for program; typical books and supplies; room and board; and other expenses in accordance with 34 CFR 668.43(a)(1).
  - On-time graduation rate;

# APSCU Lawsuit, cont.

---

- Placement rate if required by accrediting agency or state agency;
- Median loan debt for Title IV loans; private education loans; and institutional financing.

# Update on Litigation

---

- On 3/19/2013, Judge Rudolph Contreras for the US District Court for DC denied motion filed by ED to reinstate its reporting requirements in the gainful employment regulations.
- Will ED appeal?
- Will ED include in neg reg?

# Update on Litigation, cont.

---

- On 3/22/2013, ED amends preamble to incentive compensation regulations:
  - On 8/14/2012, Court remanded Department to Clarify why it eliminated safe harbor for compensation based on students successfully completing program; and
  - Department's failure to address adverse impact of regulations on minority enrollment.
  - ED explained that ED was concerned that recruiters were guiding students to short-term programs to ensure compliance, that schools were manipulating grading policies; and that schools could manipulate student employment data.

# Getting Ready for Reauthorization

- On 4/2012, the National Advisory Committee on Institutional Quality and Integrity (NACIQI) issued its Accreditation Policy Recommendations for the HEA Reauthorization. The report reflects the results of its consideration of testimony from various stakeholders.
- NACIQI concluded that the accreditation system serves as a “critical element” in providing information about academic quality to satisfy the federal interest in assuming the appropriate use of federal funds.
- The report offers specific recommendations to strengthen the role of accreditation, the state role, and the federal role in the oversight of higher education institutions.

# Getting Ready for Reauthorization, cont.

---

- Accrediting agencies should focus on value, standards, outcomes, cost, transparency and accountability;
- States should strive for consistency in the area of consumer protection and accountability; and
- The federal government should determine what mechanisms ensure quality and better communication and collaboration among the TRIAD.
- The report is found at:  
<http://www2.ed.gov/about/bdscomm/list/naciqi.html>

# Other Reauthorization Issues

---

- Bill and Melinda Gates Foundation’s “Reimaging Aid Design and Delivery (RADD)”:
  - 16 organizations offered ideas for changing the aid programs; but lack of consensus.
  - Some agreement:
    - Interest rate on loans-time to move to market-based rate;
    - 7 different repayment plans – need to simplify and move to automatically enrolling students in income-based plan;
    - Current system of tax credits is too complex- little appetite to re-examine due to bipartisan support;

# Other Reauthorization Issues, cont.

---

- Colleges overwhelmed with federal data-reporting requirements but ban on federal unit-record system-Shopping Sheet has better chance to survive than eliminating federal unit-record ban; and
- College Board report calls for focusing Pell Grants on neediest and different requirements for those 24 and younger versus 25 and older.

# State Authorization

§§600.4(a)(3), 600.5(a)(4), 600.6(a)(3),  
600.9, and 668.43(b)

(DCL GEN-11-05, DCL GEN-11-11, DCL  
GEN 13-14)

# State Authorization Requirement

---

- In order for an institution to be eligible to participate in the Title IV, HEA programs, it must be legally authorized to provide postsecondary education by the State in which it is located.
- ED sought to clarify what is required for an institution to be considered legally authorized by a State for purposes of Federal programs.

# Clarification of State Authorization Requirements

---

- Requirements are clarified based on whether the institution is:
  - Established by name as an educational institution;
  - Authorized to conduct business; or
  - Authorized to operate as a nonprofit charitable organization.
- Federal, tribal, and religious institutions are exempt from these requirements.
- Requirements imposed on institutions providing distance education to students in a state in which it is not physically located. (7/12/11 District Court ruling struck down requirement that colleges offering online programs in other states needed approval from those states.)

# Institution is Established by Name as an Educational Institution

---

- If established as an educational institution by a State, it:
  - Must be established **by name** as an educational institution by a State through a charter, statute, constitutional provision, or other action issued by the State agency and is authorized to operate educational programs beyond secondary education, including programs leading to a degree or certificate;
  - Must comply with any applicable State approval or licensure requirements; and

# Institution is Established by Name as an Educational Institution, cont.

---

- State may exempt the institution from State approval or licensure requirements based on:
  - The institution's accreditation if agency recognized by the Secretary; or
  - The institution being in operation for at least 20 years.
- School must provide some type of authorization as a postsecondary institution by the State; and a letter issued by the State naming the institution would not satisfy requirements.

# Institution is Authorized to Conduct Business in the State or to Operate as a Nonprofit Charitable Organization

---

- If established on the basis of an authorization to conduct business in the State or to operate as a nonprofit charitable organization:
  - Must comply with the State approval or licensure requirements;
  - Must be approved or licensed **by name** to offer programs beyond secondary education, including programs leading to a degree or certificate; and
  - May not be exempt from the State approval or licensure based on accreditation, years in operation, or a comparable exemption.

# State Must Establish Complaint Process

- The State must have a process applicable to all institutions:
  - To review and address complaints, independent of the school's process, directly or through referrals; and
  - The State may fulfill this role through a State agency, the State Attorney General as well as other appropriate State officials; or
  - The State may use a combination of agencies.
  - State must remain responsible for responding to complaints, but may refer them to other entities (i.e., an accrediting agency for final resolution).
  - But all relevant officials or agencies must be included in an institution's institutional information that is disclosed under §668.43(b).

# ED Sends Reminder that Institutions are Required to Have State Approval by 7/1/2013

- DCL GEN-13-04 reminds institutions that the stay of enforcement of the State authorizing regulations ends 6/30/2013.
- In order to be eligible to participate in Title IV programs, an institution must be legally authorized by a State to provide a postsecondary education program, and the State must have a process to review and act upon complaints about the institution.
- Institution could lose eligibility to participate if it is not approved or authorized by the State.

# ED Sends Reminder that Institutions are Required to Have State Approval by 7/1/2013, cont.

---

- Issue that is unresolved in some states relate to *licensure by means of accreditation* where it appears that there is no state-approval process.
- Issue that is unresolved relates to programs (i.e., cosmetology) which may not be authorized at the postsecondary level.

# Report Shows Colleges Avoid Seeking State Authorization in Certain States

---

- Study shows that 2/3 of respondents in 2011 had not applied to one state and 2/3 of respondents applied to at least one state in 2013.
- 59% of respondents identified states from which they will not accept students: Minnesota, Massachusetts, Arkansas, Maryland, and Alabama.
- 29% of respondents plan to seek authorization in every state.

# Credit Hour

§§600.2, 602.24, 603.24, and 668.8

# Why Establish a Credit Hour Definition?

---

- There was no definition;
- Establishes consistent measure of eligibility for Federal funding; and
- Final Rules: Provides that a credit hour is an institutionally established equivalency of amount of work that reasonably approximates not less than the measures in the definition for **federal funding purposes.**

# Definition of Credit Hour

- Credit hour is defined as an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:
  - One hour of classroom or direct faculty instruction and a minimum of *two hours of out of class student work each week for approximately 15 weeks for one semester or trimester of credit, or 10 to 12 weeks for one quarter credit, or equivalent amount of work over a different amount of time; or*

# Definition of Credit Hour, cont.

---

- Credit hour is defined as follows (cont.):
  - At least an equivalent amount of work as required in the first paragraph for other academic activities including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

# Clock-Hour Program

- The regulations require certain credit-hour programs to be considered clock-hour programs for Title IV purposes if:
  - The program is required to *measure student progress* in clock hours when receiving federal or state approval or licensure to offer the program; or
  - The program is required to *measure student progress* in clock hours when completing clock hours is a requirement for graduates to apply for licensure or the authorization to practice the occupation that the student is intending to pursue; or
  - The credit hours awarded are not in compliance with the proposed definition found in 34 CFR 600.2.

# ED Provides Guidance on Determination of Clock-Hour Program

---

- On 3/29/2013, ED addressed determination of clock-hour program in FAQs:
  - If a State requires an institution to report clock hours in a program before program approved, is that program a clock-hour program?
    - "It depends on how the clock hour information is used. Simply reporting the number of clock hours in the program to the State does not necessarily mean that the program is treated as a clock hour program. If the State uses or requires the institution to use this information in a substantive way, the program is a clock hour program for Title IV purposes.

# ED Provides Guidance on Determination of Clock-Hour Program, cont.

---

For example, if the State establishes a ratio of clock to credit hours for purposes of approving a program, or if the institution is required to use the clock hour information in calculating a refund under State law, it is considered to be a clock hour program."

- If a State requires a minimum number of clock hours to authorize a program, is the program automatically considered a clock hour program? For example, if a State requires that an automotive repair program consist of at least 1000 clock hours, is the program a clock hour program?
  - "Yes."

# ED Provides Guidance on Determination of Clock-Hour Program, cont.

---

- If a State licensing board requires a student to complete a specified number of clock hours to sit for a licensing exam, is the program automatically considered a clock hour program.
  - "Yes."

# Clock-to-Credit-Hour Conversion

- Required for non-degree programs at any type of institution if each course in non-degree program does not transfer into at least a 2-year degree program; have enrolled students; and graduates.
- Except in certain cases discussed below, the method of converting clock hours to credit hours is modified using 900 clock hours as the minimum. *Therefore, a semester hour will be based on 37.5 clock hours and a quarter hour will be based on 25 clock hours.*

# Clock-to-Credit-Hour Conversion, cont.

- *The institution's conversions to establish a minimum number of clock hours of instruction per credit hour may be less than 37.5 or 25 clock hours if, for participation in Title IV programs, neither the accrediting agency nor the state agency has identified deficiencies with the institution's policies and procedures or its implementation for determining credit hours as defined in 34 CFR 600.2 so long as:*
  - *The institution's students' work outside of class combined with the clock hours of instruction meet or exceed the numeric requirements in the conversion formula; and:*

# Clock-to-Credit-Hour Conversion, cont.

---

- A semester or a trimester hour must include at least 30 clock hours of instruction (7.5 hours of outside preparation); and
- A quarter hour must include at least 20 clock hours of instruction (5 hours of outside preparation).
- Assessment of outside preparation is on a course-by-course basis; and
- Accreditors must approve of outside preparation.

# Responsibilities of an Accrediting Agency

- The responsibilities of an accrediting agency are to conduct an effective review and evaluation of an institution's policies and procedures for the assignment of credit hours and the institution's application of its policies and procedures in assigning credits. The accrediting agency meets the requirement if it reviews each institution's:
  - Policies and procedures for determining credit hours that the institution awards for courses and programs;
  - Application of the institution's policies and procedures to its courses and programs;

# Responsibilities of an Accrediting Agency, cont.

---

- Makes a reasonable determination of whether the institution's assignment of credit hours conforms to commonly accepted practice in higher education;
- The accrediting agency may make use of sampling or other methods in the evaluation;
- The accrediting agency must take appropriate actions to address any deficiencies;
- If an agency finds systemic noncompliance, the agency must promptly notify ED; and
- Accreditation reviews occur for initial or renewal of accreditation; however, during the interim, an institution is held responsible and accountable for meeting definition.

# ED Guidance on Clock-Credit Hour Conversion

---

- Per page 66856 of the Preamble of the 10/29/2010 final regulations, institution must require students to complete clock hours that are the basis for the credit hours awarded when an institution converts to credit hours. Programs must contain clock hours that support the conversion. Institutions may permit excused absences.
  - ED recommends that institutions not provide grades until underlying clock hours are complete.

# ED Guidance on Clock-Credit Hour Conversion, cont.

---

- New courses may be started but clock hours under new courses may not count toward completion of the previous courses.
- If a state agency provides a clock-to-credit-hour conversion formula in their statutes and regulations that did not address outside preparation, then the programs regulated by the agency must be offered in clock hours.
- ED is examining various state laws and plans to call the state agencies to determine whether outside preparation is used to determine what constitutes a credit hour.
